## Short Note

DANTE is a Progressive Rock / Metal Band from Augsburg / Germany and was founded in 2006.

In early 2008 the band released the completely selfproduced debut „The Inner Circle“. The album was an immediate success with critics and fans worldwide.

Directly sold via social networks the album had to be reprinted in mid 2008 due to the great demand. This attracted the attention of many labels.

Early 2010 DANTE were signed by the american label ProgRock Records. Their second album „Saturnine“ was released in July 2010 and has already become a critics' favourite.
